## MAGNUM ALUMINUM Dump Body

Magnum Aluminum Dump Bodies are designed to do a serious days work for the Contracting, Municipal and Landscaping industries. Our aluminum bodies are built tough but much lighter than steel which means more payload, no painting and more profit for our customers.

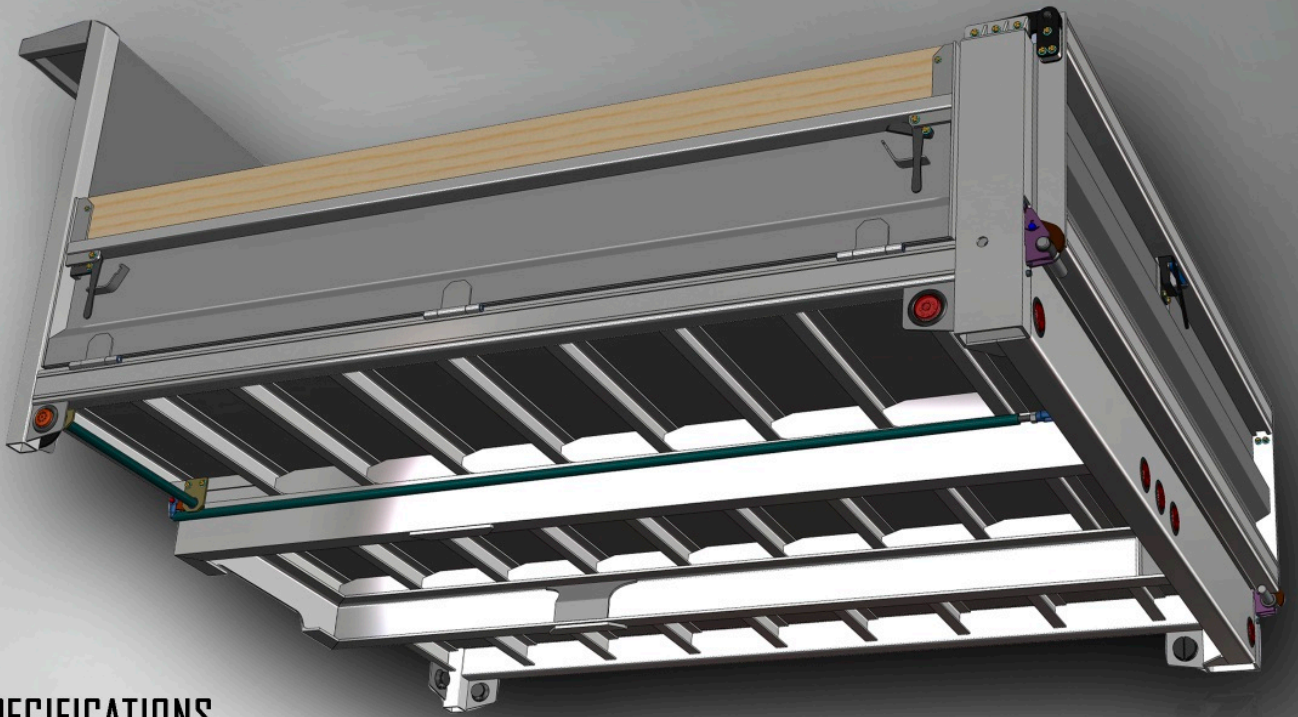

### Key Features Include:

- High strength lightweight aluminum for durability and superior appearance
- Never needs to be painted
- Drop down sides c/w stainless hinge pins
- Two way removable tail gate
- Premium easy opening steel latches and gate hardware for long life
- LED Lighting standard
- Available in 9' to 14' lengths

*Superior Styling, Innovative Designs, Super Strength*
