

ALUMINUM TRUCK DECKS

Built tough for the Contracting, Municipal, and Landscaping industries. Our exclusive heavy duty aluminum extrusions make Magnum decks equivalent to steel decks in strength, but much lighter which means more payload and profit for your class 3 to class 8 truck.

Key Features Include:

- High strength lightweight aluminum construction for durability and superior appearance
- Never rusts or needs painting, better fuel economy, increased payloads
- Smooth outer rail c/w integrated fully welded internal stake & chain pockets
- HD bulkhead c/w polished aluminum checker face plate
- Composite panel decking is impact resistant with a textured anti slip surface
- Polished aluminum checker plate tail skirt with LED lighting
- Available in 8' to 24' lengths and 96" to 102" widths

Many standard and custom options available:

Trailer Swing Corners

Various Bulkhead Styles

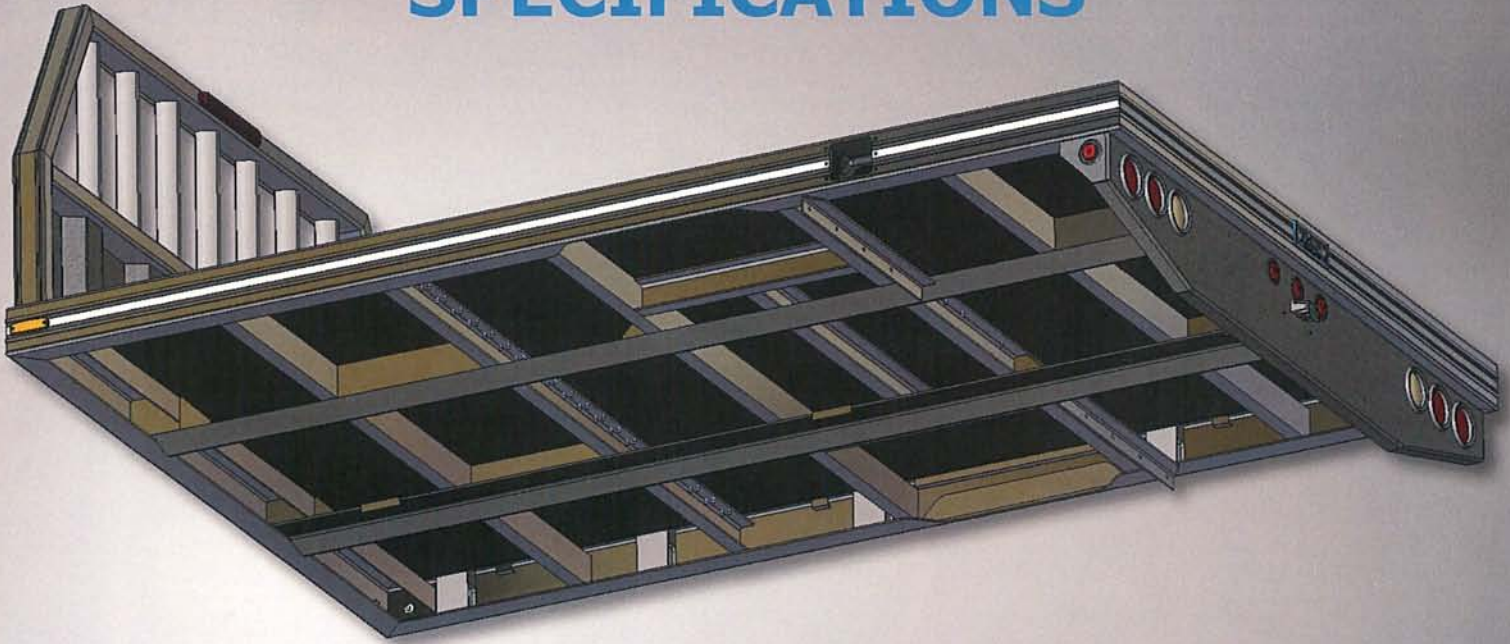

Heavy Duty Winches

Recessed Gooseneck Ball

Tow Hitch Receivers

Storage Boxes
